Примечание 1: Прицел пулемета Сент-Этьена может быть отнесен также и к выдвижным прицелам.

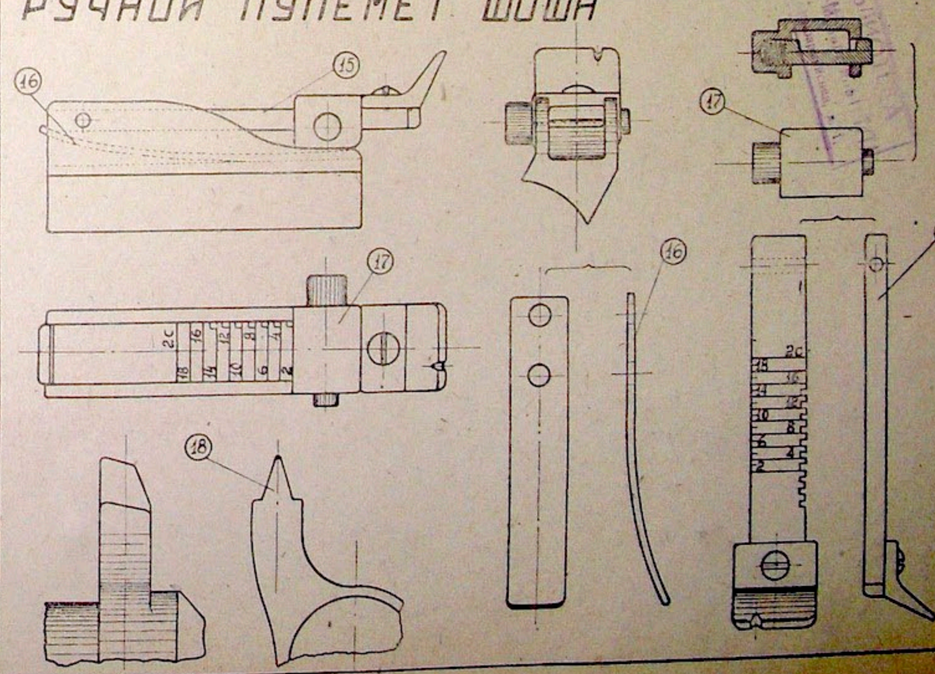

Примечание 2: Мушка ст. пулемета Сент-Этьена устроена с автоматической поправкой при нагревании во время стрельбы.

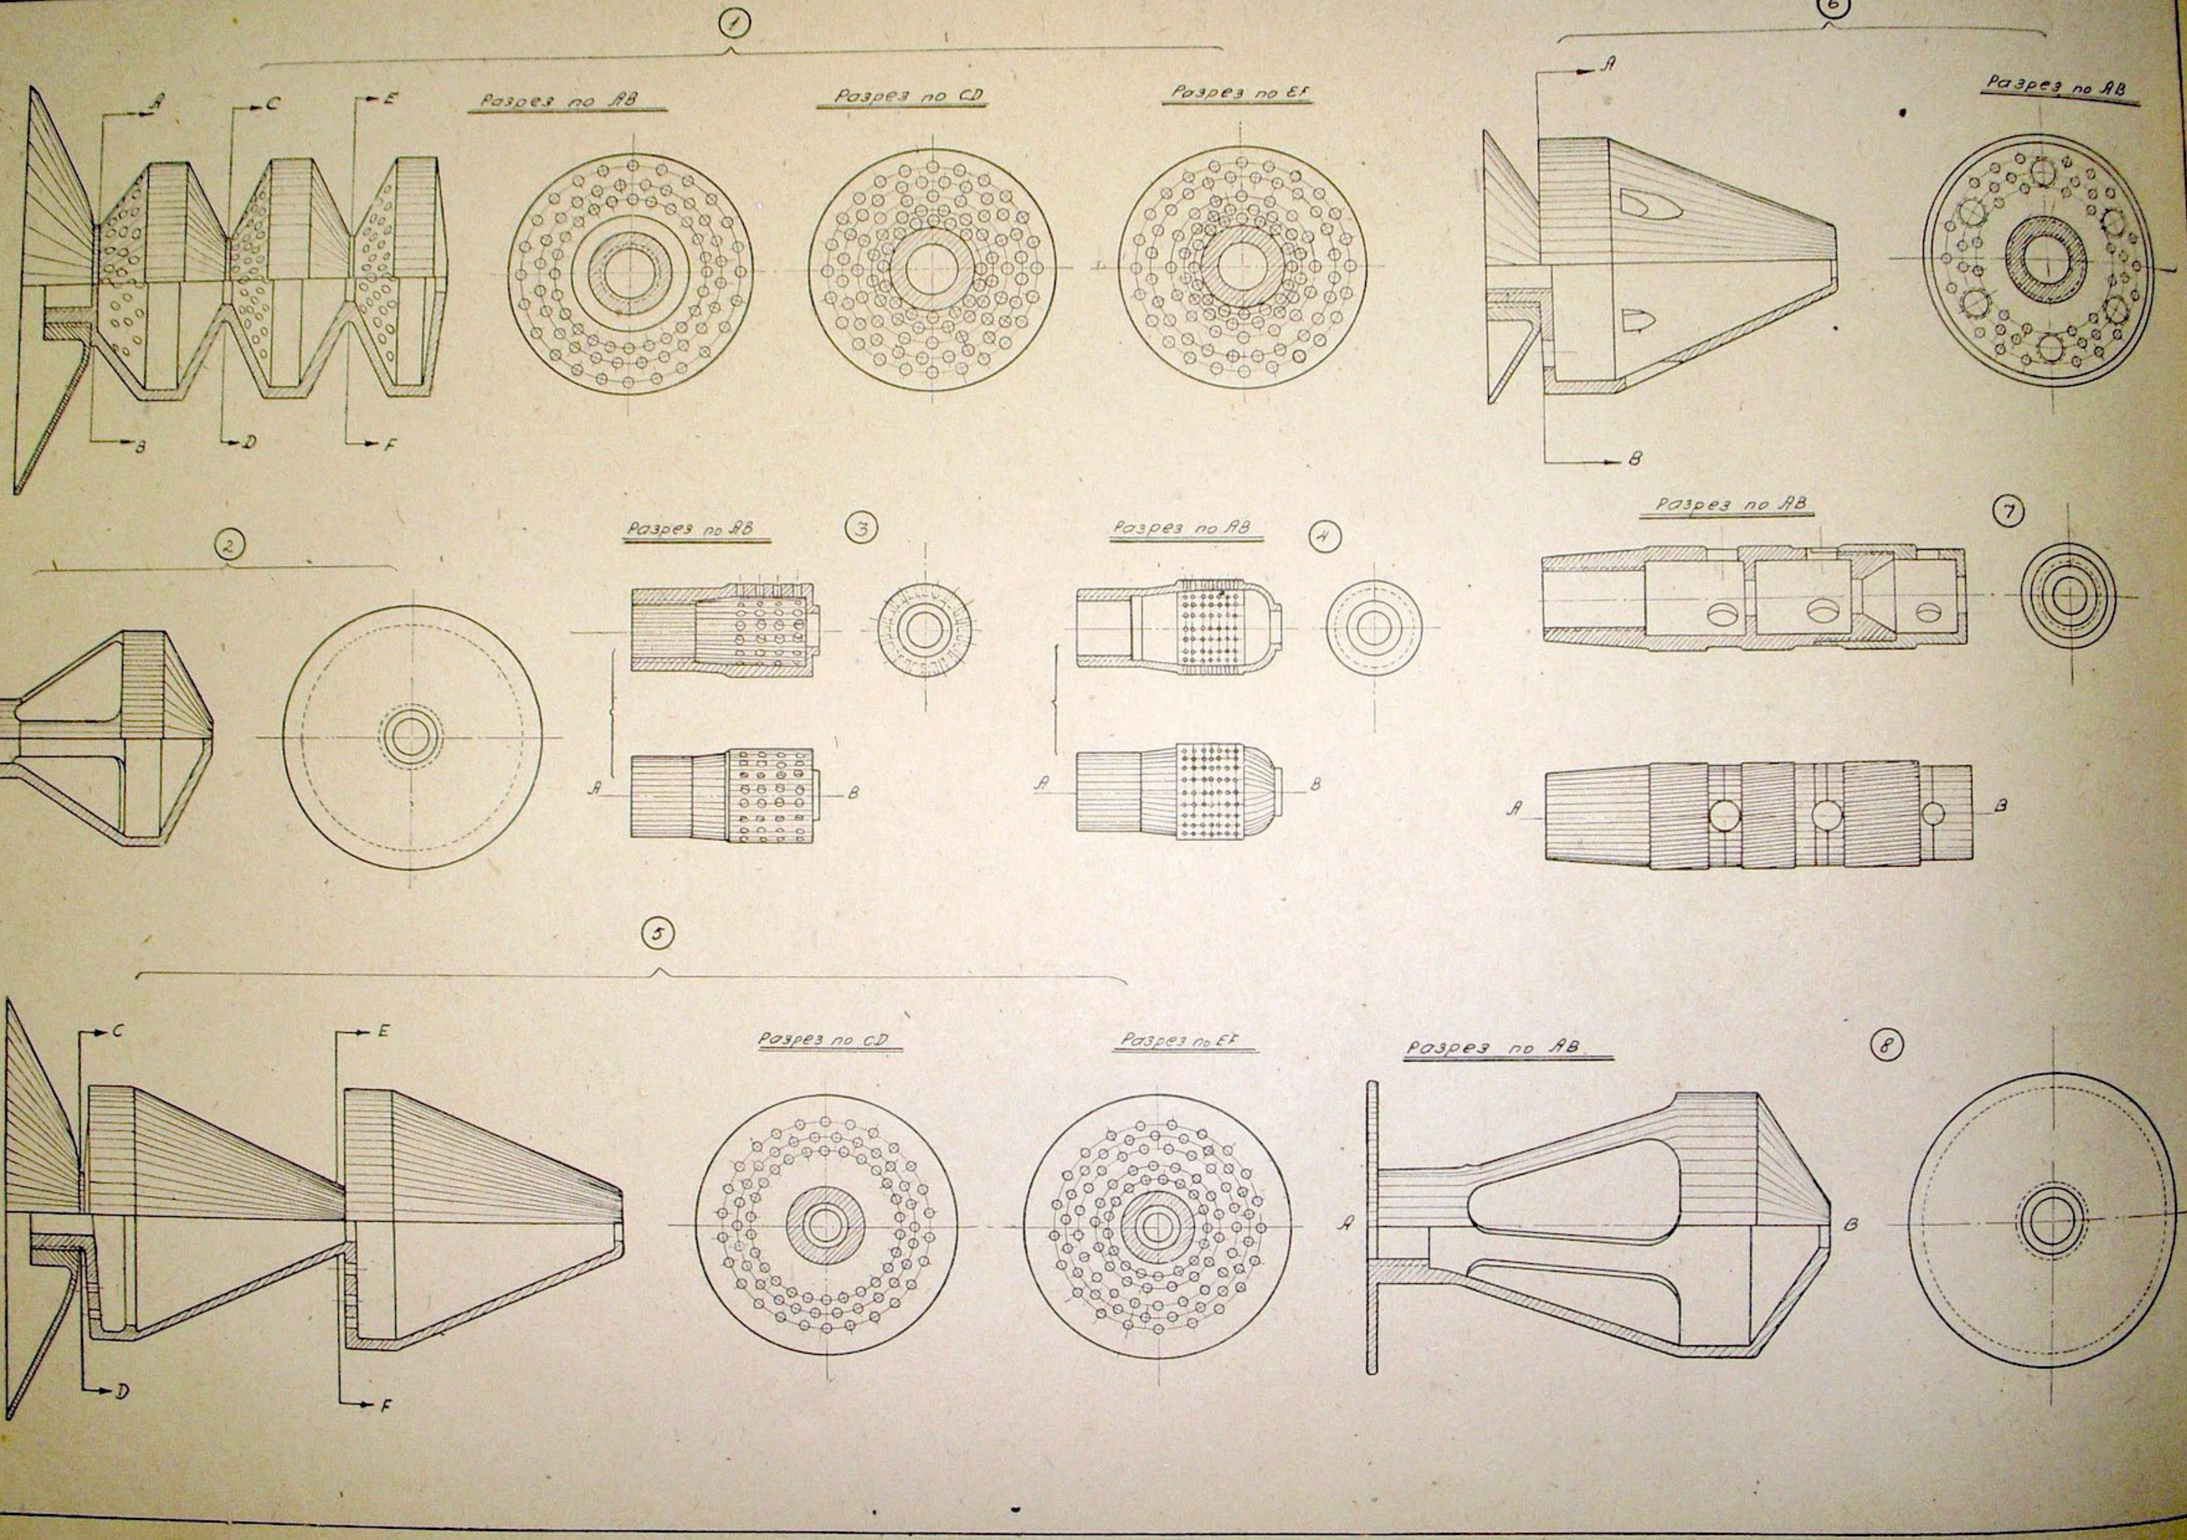

Автоматическое устройство для поправок основано на разности коэф. линейного расширения бронзы и стали и разности температуры нагревания корпуса-основания мушки и стального стержня вводящего поправку.
