BURN the local POLICE STATION!

1. Fill a narrow-necked bottle with petrol, kerosene or other burnable liquid. If possible, add shredded soap or sawdust. 2. Insert a rag in the bottle until one end touches the liquid and the other extends no more than 20cm from the rim of the bottle. Seal the bottle tightly with string or tape. 3. To activate the device: A) Hold the bottle in one hand with your arm extended. B) Light the rag with your other hand. C) Immediately throw the lighted bottle at your objective with sufficient force that it breaks on impact.

R O A D S!**

DISABLE TRUCKS and CARS!

To perforate tyres: 1. Get a square of steel, 6.5 x 6.5 x 1.5 cm. 2. Cut the square to form a triangle. 3. Sharpen the edges to better perforate the tyre 4. Place the triangle with the point on the tyre tread at a 45 degree angle.

DISABLE TRUCKS and CARS!

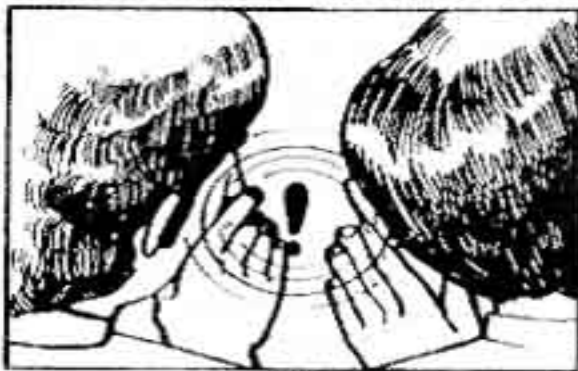

**By puncturing
the radiator, fuel
tank or tyres
with an ice-pick
or sharpened
screwdriver!**

DISABLE CAR AND TRUCK ENGINES!

**By stealing,
breaking, or
cutting the
cables of the
distributor cap!**

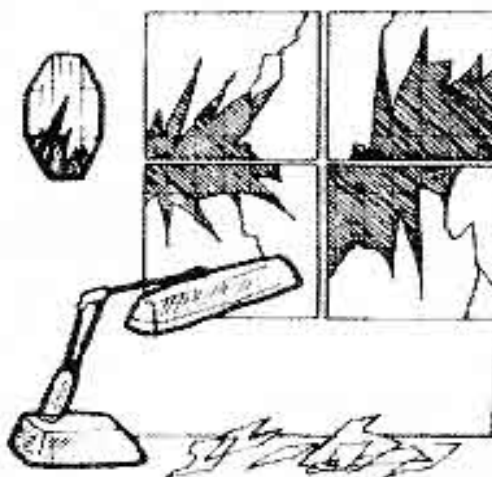

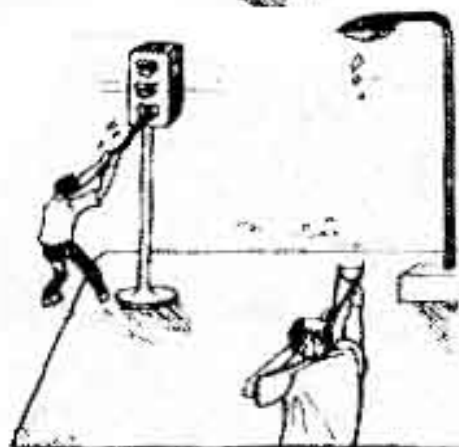

MAKE TROUBLE!

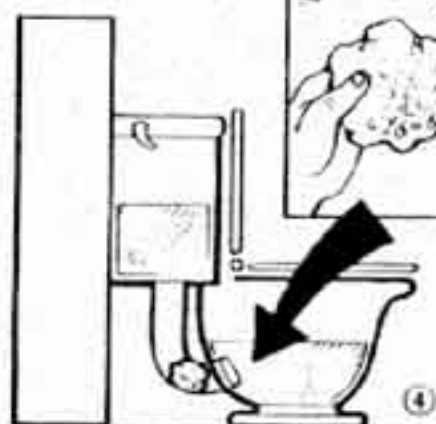

Spread rumours. Make false hotel reservations etc.

S M A S H WINDOWS and LIGHTS!

BLOCK the TOILET!

1. Wet a sponge. 2. Wrap the sponge tightly with string. Let it dry. 3. Remove the string. 4. Introduce the sponge into toilets or water drains to stop them up as the sponge swells.

FUN with FIRE!

To make a simple fuse; 1. Place an unlit cigarette between two rows of matches. Tie them firmly with string. 2. Wrap the matches in dry paper or other inflammable material. Place between wooden or cardboard boxes. 3. Light the cigarette at the free end. The matches will light in 5 or 10 minutes.

MAKE BIG EXPLOSIONS!

Punch holes in fuel drums with an ice-pick or similar instrument. Ignite from a distance using a Molotov Cocktail.

BURN the local POLICE STATION!

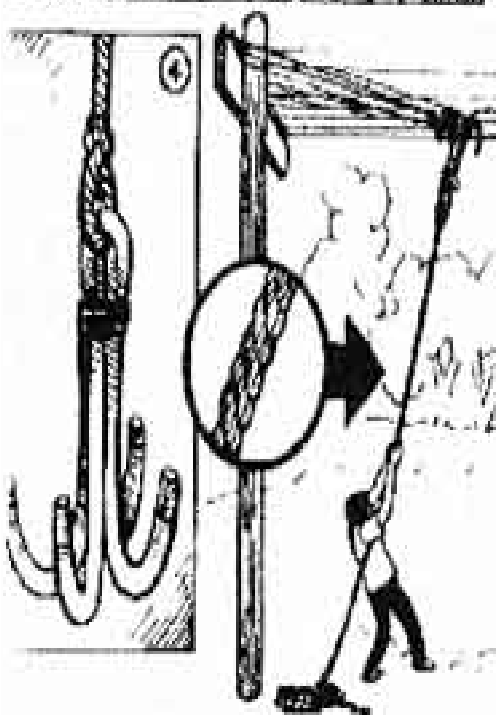

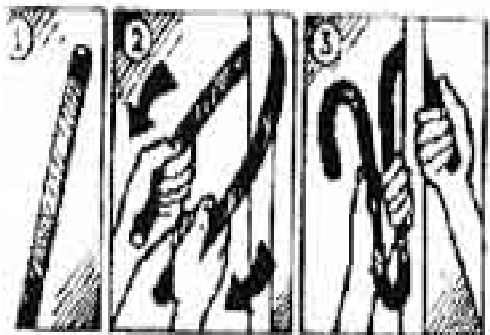

1. Fill a narrow-necked bottle with petrol, kerosene or other burnable liquid. If possible, add shredded soap or sawdust. 2. Insert a rag in the bottle until one end touches the liquid and the other extends no more than 20cm from the rim of

the bottle. Seal the bottle lightly with string or tape. 3. To activate the device: A) Hold the bottle in one hand with your arm extended. B) Light the rag with your other hand. C)

Immediately throw the lighted bottle at your objective with sufficient force that it breaks on impact.

PULL DOWN TELEPHONE WIRES!

1. Get a steel bar. 2. Bend it around a pole . 3. Make three bends to form a hook. 4. Tie a rope (NOT a cable) to the uper part. Throw the hook until it catches the telephone wires (never the power lines) and pull on the rope until you bring them down.
